

*Nutraceuticals*

**Caro**Quik

In order to respond to the increasing demand in the market for ready-to-drink mixes, Divi's has developed a specific product formulation which allows quick dispersion required in such powdered drink mixes.

Under the brand name **CaroQuik** different products have been developed and launched into the market. The advantage of such products is the fast dispersibility when mixed with water of about half the time required for similar products in the market.
